

OSM UPDATE

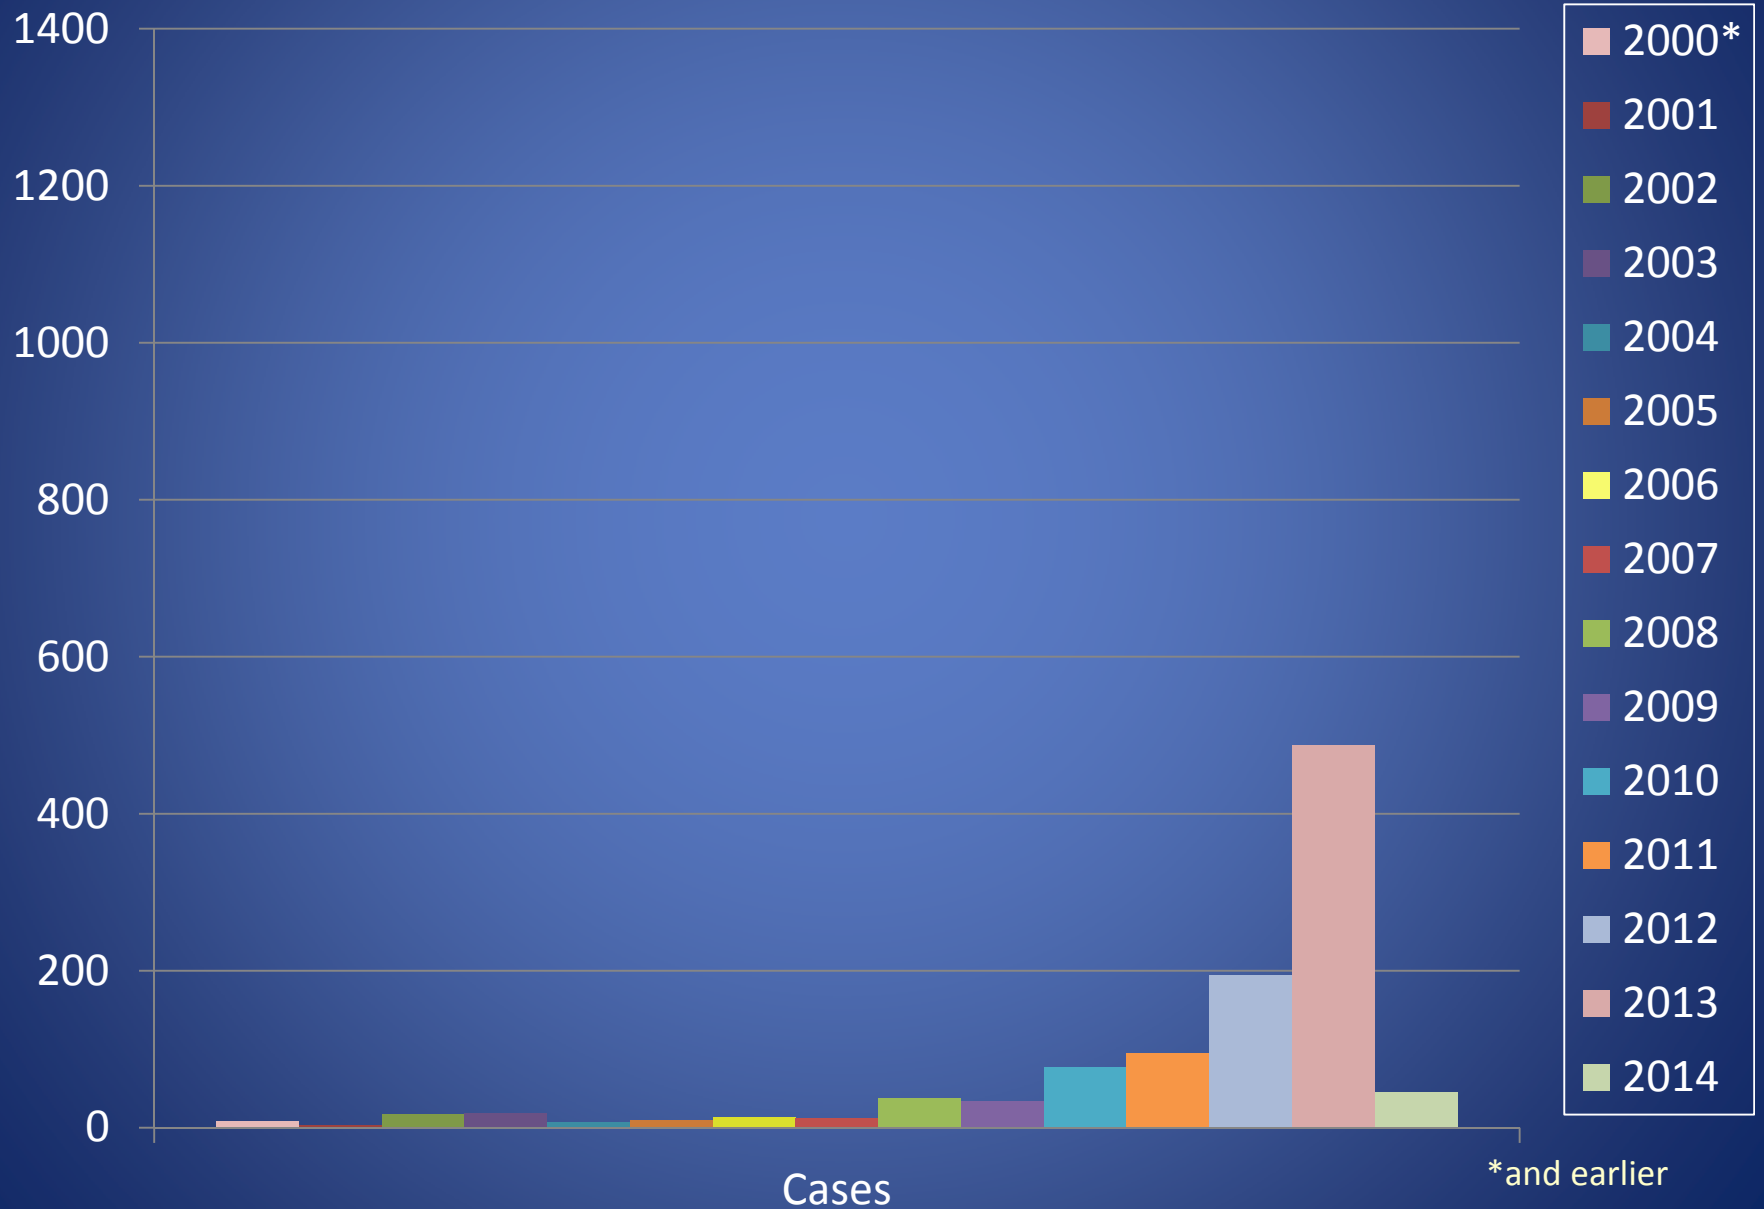

OSM CASELOAD TODAY

- As of February 1, 2014, we had 1058 open and active cases, an average of about 150 cases per the 7 special masters currently assigned.
- Only 2 of the 1000 “*Cloer*-hold” attorney fees cases remain open.
- Approximately 100 autism cases remain open, with decisions expected in several cases presenting similar theories expected in 2014.

The Climbing Caseload

Non-Autism Filings 2006-2013

Types of Claims Filed

- Of the 525 cases filed in 2014
 - 258 (50%) identify the influenza vaccine.
 - 103 (21%) do not identify a vaccine in the Nature of Suit code selected by petitioners' counsel at filing.
 - 68 (13%) identify a vaccine containing D, T, or aP.
 - 20 (4%) identify the HPV vaccine as causal.
- Based on current rates of filing, we expect over 550 cases will be filed in 2014.

CONCLUSION
